Who We Are

All Africa Golf provides full golf course design, sports field construction, landscaping, irrigation and maintenance. We also offer remodelling and renovation to existing golf course facilities from championship golf courses to private member clubs, par 3 courses, driving ranges and even private residential practice facilities.

Established in 2012, All Africa Golf has rapidly become known for its cost effective construction methods and quality assurance.

We pride ourselves on delivering quality golf courses within realistic budgets as has been evident in our projects in Botswana, Malawi, Rwanda and Zanzibar.

Our Mission

To become trustworthy and reliable partners to Golf Clubs and developers in the Africa region, focusing on construction, renovations and maintenance.

Our Core Values

Integrity - We pride ourselves through honesty, trust, commitment and professionalism.

Quality - We are dedicated to providing world class services, assuring customer satisfaction.

Teamwork - Our team is dedicated to having a cohesive and supportive work environment, that encourages employees to work harmoniously to achieve a shared end result.

Our Services

The quality of our product is a reflection of years of international experience, passion and dedication in golf course construction. We are solely focused on giving the client a quality product regardless of budget constraints.
